

60M HDMI Extender Single via Cat 5e/6

The Extender uses single cat-5E or cat-6(recommended) cables up to 60 meters instead of HDMI cable to transmit high definition signal, for cutting down cost. Long distance transmission of high definition signal. definition is very difficult because HDMI cable is very expensive and infrequent. The Extender is designed to supply for long distance transmission of high definition signal.

FEATURES

This HDMI Extender has many features that enable it to perform in superior manner, among those features and you will find:

- 1)One pair as a full functional module, no need of setting.
- 2)CAT-5e/6 cable can substitute HDMI cable to achieve long distance transmission.
- 3)CAT-5e/6 follow the standard of IEEE - -568B
- 4)Transmission distance can be up to 30/45/60/120 meters for 1080pwhile using CAT-5e/6 cable.
- 5)Compact size
- 6)Signaling rates up to 1.65Gbps in support of 1080p display.
- 7)HDCP compliant
- 8)Support uncompressed audio such as LPCM
- 9)Support compressed audio such as DTS Digital, Dolby Digital (including DTS- -HD and Dolby true HD)
